

# Job Positions at CASE/CARE

## **Team Lead (Software)**

**Job Code: TLSW Positions: 01**

4-5 years of experience in software development, strong skills in .NET framework, C#, Visual C/C++, databases, design and verification methodologies. Good communication skills required.

## **Team Lead (Hardware)**

**Job Code: TLHW Positions: 01**

4-5 years of experience in FPGA based embedded systems development, Verilog RTL, Xilinx development tools, design and verification methodologies, parallel processing, timing closure, knowledge of PCI/PCle bus protocols is a plus. Good communication skills required.

## **Team Lead (Algorithms, Image Processing)**

**Job Code: TLAL Positions: 01**

3-4 years of experience in developing image processing and pattern matching based algorithms in Matlab. Experience in taking a project from Algorithm design to embedded system implementation is preferred.

## **Design Engineer (Algorithms)**

**Job Code: DEAL Positions: 01**

Strong background in image processing, pattern matching and machine vision based algorithm in Matlab. Should also have some experience in C/C++ coding.

## **Software Engineer**

**Job Code: DESW Positions: 03**

Strong coding skills under .NET framework. Should be comfortable in Visual C/C++ and databases. Although some experience is preferred, fresh engineers may also apply.

## **Design Engineer (Hardware/RTL/FPGA)**

**Job Code: DEHW Positions: 03**

Strong background in Verilog RTL, Xilinx development tools, FPGAs, timing closure and verification. Although some experience is preferred, fresh engineers may also apply.
